

ATLANTA SNAPSEAL LTD.

Cap seals for steel drums and plastic drums

Atlanta SnapSeal, Ltd. is in the business of producing and marketing cap seals for steel drums and plastic drums. We offer six styles of plastic caps that can be applied to drums without the use of a crimping tool.

The **SnapSeal - T** is available in 2" and 3/4" and is designed to fit steel drums with a round bung. They are available in four colors - White, Red, Blue and Green.

They come packaged 1000 per carton.

The **SnapSeal - R** is also available in 2" and 3/4" and is designed to fit steel drums with a hex-head bung, but will also fit a few plastic and fiber drums. They are available in three colors - White, Red and Blue.

They come packaged 1000 per carton.

The **SnapSeal - R-II** is the 2nd generation for steel drums with a hex-head bung and is available in 2" and 3/4". They are available in White, Red and Blue.

They are packaged 1000 per carton.

The **SnapSeal - U** was designed to fit many of the plastic drums on the market, but will not fit all of them.

The **SnapSeal - P** was also designed for the Grief Brothers Drum and features a Tamper evident pull tab. These are available in White only and come packaged 500 per carton but sold as units of 1000.

- 2" and 3/4 sizes
- Ease of application
- No crimping required
- Various colors available
- Logo application available
- Chemically resistant
- Recyclable plastic
- Lower cost
- T and R for steel drums
- U for plastic drums

SnapSeal DP (drum plug)

The SnapSeal drum plug is perfect for use in a bung opening. Whether you are painting a new or reconditioned drum, the SnapSeal DP prevents paint from getting inside a drum. In addition, the SnapSeal DP is shaped to avoid blocking the paint spray from covering the entire outside top of the drum.

The SnapSeal DP is made of reusable and recycled plastic. It provides a nice, tight fit and is hand-operated. Available in black, the SnapSeal DP comes in 2-inch and 3/4-inch sizes.
